RSIC University Open 24/7

LAS VEGAS, NV -- PAC International's Resilient Sound Isolation Clip (RSIC) University offers a FREE, *Sound Attenuation* course. This educational program provides an overview of acoustics, buildings, construction techniques, systems and assemblies to control noise.

The one-hour course is accredited by the American Institute of Architects, Construction Specifications Institute and other organizations that serve architects, engineers and construction professionals. AIA and CSI members may take the online class whenever convenient by accessing the company's web site at www.pac-intl.com/rsic_university.html. AEC Daily hosts the online course. Successful completion of the class generates a credit hour towards meeting state and professional continuing education requirements. A complete listing of organizations accepting this course is provided via the web site and RSIC University links.

PAC International, Inc., is the world leader in *Noise Control Solutions*. RSIC® products are UL Classified and exceed fire rating performance. The RSIC family of *Noise Control Solutions* consistently achieves superior Sound Transmission Class (STC) and Impact Insulation Class (IIC) ratings in both new construction and renovations while remaining cost effective and environmentally friendly.
